

Pricing Notice: Change in frequency of India imported scrap price assessment

In the light of feedback received on refining its global ferrous scrap coverage and considering the frequent price volatility, SteelMint has decided to increase the frequency of India's imported scrap prices. Earlier the price assessments of Melting scrap, CNF Nhava Sheva were done on weekly basis every Friday at 18:30 IST.

According to the new schedule, the prices will be updated bi-weekly at 18:30 IST on Tuesdays and Fridays. Hence the assessment will be bi-weekly instead of weekly.

To provide feedback on this price or if you would like to contribute by becoming a data partner, please contact – info@steelmint.com
