SteelMint launches Assessment For Chinese Domestic Long Steel

China, the world's largest steel producer, produced around 1,059 mn t of crude steel in CY'20. About 428.41 mn t of finished long steel products were produced in China in CY'20. Rebar and wire rod accounted for 265 mn t and 164 mn t out of the total finished long steel output, respectively.

Thus, in line with the feedback received on refining its global longs coverage, SteelMint has decided to launch this assessment.

	Rebar	Wire rod
Size	16mm	6mm
Grade	HRB400E, Grade 3	HPB300
Origin	China (Hegang region)	China (Hegang region)
Unit	RMB/t	RMB/t
Frequency	Daily	Daily
Taxes	Includes VAT	Includes VAT
Publication	Monday-Friday (18:00 IST)	Monday-Friday (18:00 IST)
